

How to Upload M3U IPTV List to V8 Golden STP

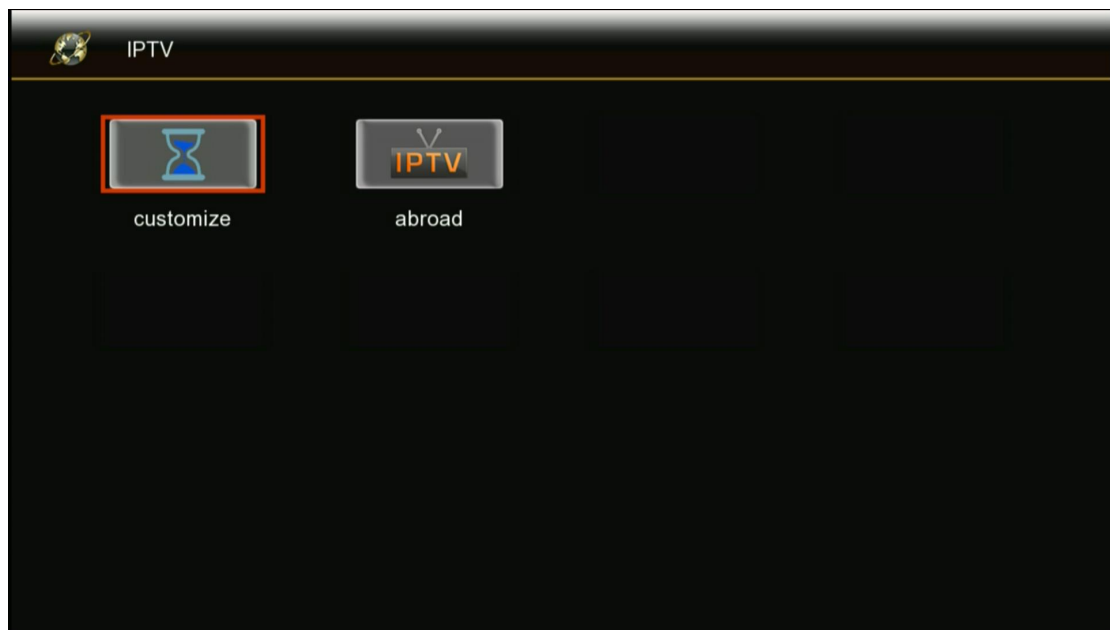

1. Download M3U to your PC
2. Rename the M3U file to: custom_url.m3u
3. Copy this M3U file to your USB Driver
4. Open the V8 STB, and connect to the internet (USB WiFi/Ethernet)
5. Go to Installation as below:

6. Plug the USB Driver to your STB (V8 Golden), it will come out a message on the screen "Are you sure import customer pg?", and then press Yes

7. Go to and Choose "IPTV", then you will find below option:

8. Choose "Customize", this file is the one which been uploaded from USB Driver.
