

How to put IPTV channel list

Step 1: Write right IPTV channel link address in WORDPAD and save as: **iptvlist.txt** file, put to USB ROOT DIRECTORY

```
BEIN1,http://iptvspider.dyndns.tv:8000/ch1?u=lynn:p=test
cctv5,http://58.64.205.132:5000/CCCTV5.m3u8
cctv5+,http://74.82.62.52:1935/liverepeater/27476.stream/playlist.m3u8?aspect=16x9
gdtv,http://58.248.254.8:1935/tvlive/gdtv-h.stream/playlist.m3u8?
astv,http://live4.tdm.com.mo:1935/tv/ch4.live/playlist.m3u8
hbtv,http://59.175.153.187/channels/zbk/hbty/flv:sd/live
jltv,http://video1.jlntv.cn/lqpd/index.m3u8
```

Remark:

1. Write the address exactly like sample.
2. File name should be: **iptvlist.txt**

Step 2: Go **Open STB**, and please input USB(**internet needed**)

Step 3: Press **“Yes”** to import customer pg.

Press "Custom" to browse customer pg.
